

Video PRO Boroscope/Camera

The 318-V digital boroscope/camera with video output is ideal for visually inspecting and recording difficult to reach areas. The miniature imaging sensor at the tip of the 42" shaft transmits crystal-clear video to a 2.5" full color LCD screen. The shaft is ruggedly constructed to resist most solvents, oil and water. In contrast, the camera's sensitivity, bright, white LED light, and auto-focus capability allow you to view objects as close as 3/8". These features combine to give you a superior boroscope that's both rugged and reliable.

**Ideal for examining
hard-to-reach areas**

testo 318-V features:

- Sharp image color camera with auto-sensitivity and focus
- 2.5" high resolution color LCD display (320 x 240)
- Video output jack (RCA)
- 42" rugged, flexible shaft -solvent and water resistant
- View objects as close as 3/8"
- Clip-on mirror for 90° viewing
- Clip-on magnet to retrieve objects up to 1/4 pound
- Powerful white LED illumination
